

Specialty Drug List

Coverage as of January 1, 2024

Specialty medications are used to treat complex medical conditions. They're typically injected or infused, and may need special handling (like refrigeration).

About this drug list

This is a list of the most commonly prescribed specialty medications covered as of January 1, 2024.

- Medications are listed **alphabetically**.
- **Generic medications are listed in all lowercase letters** and brand-name medications are listed in all capital letters.
- **The drug list is updated often so it isn't a full list of the medications your plan covers.** Also, your specific plan may not cover all of these medications.

Some plans have specific coverage requirements for specialty medications

For example, plans may:

- Limit coverage to a **30-day supply**.
- Cover certain medications **under the pharmacy benefit, medical benefit, or under both benefits.** Medications that you fill at the pharmacy and take yourself are typically covered under the pharmacy benefit. Medications that are injected or infused and are given to you at a doctor's office, an infusion center or at home are typically covered under the medical benefit. The way the medication is covered may affect how much it costs, if it needs approval from Cigna HealthcareSM before your plan will cover it and/or if it has to be filled at a specific pharmacy to be covered.

In this drug list, **medications that are covered under both benefits have an asterisk (*)** next to them.

Log in to the **myCigna**[®] App¹ or **myCigna.com**[®], or check your plan materials, to learn more about how your plan covers specialty medications.

Consider using Accredo[®], your specialty pharmacy²

Their team of specialty trained pharmacists and nurses will fill and ship your specialty medication to your home (or location of your choice).³ They'll also provide you with the personalized care and support you need to manage your therapy – at no extra cost.

- Easily manage and track your medications on your phone or online
- 24/7 access to specialty-trained pharmacists and nurses
- Fast shipping, at no extra cost⁴
- Easy refills and free reminders
- Personalized care services like training on how to administer your medication
- Help with applying for third-party copay assistance programs and other options

For more information, go to: **Cigna.com/specialty** or call **877.826.7657**, Monday–Friday, 7:00 am–8:00 pm CST or Saturday, 7:00 am–4:00 pm CST

Generic medications are listed in all lowercase letters and brand-name medications are listed in all capital letters.

* This medication is covered under both the pharmacy and medical benefit. Log in to the [myCigna App](#) or [myCigna.com](#), or check your plan materials, to learn more about how much it costs, if it needs approval from Cigna Healthcare before your plan will cover it and/or if it has to be filled at a specific pharmacy to be covered.

1. App/online store terms and mobile phone carrier/data charges apply. Customers under age 13 (and/or their parent/guardian) will not be able to register at [myCigna.com](https://mycigna.com).
2. Not all plans offer Accredo as a covered pharmacy option. Please log in to the [myCigna App](https://mycigna.com) or [myCigna.com](https://mycigna.com), or check your plan materials, to learn more about the pharmacies in your plan's network. Cigna Healthcare maintains an ownership interest in Accredo's specialty pharmacy services. However, you have the right to fill prescriptions at any pharmacy in your plan's network. You won't be penalized regardless of where you fill your prescriptions.
3. As allowable by law. For medications administered by a health care provider, Accredo will ship the medication directly to your doctor's office.
4. Standard shipping costs are included as part of your prescription plan.

Para obtener ayuda en español llame al número en su tarjeta de Cigna Healthcare.

Cigna Healthcare reserves the right to make changes to this drug list without notice. Your plan may cover additional medications; please refer to your enrollment materials for details. Cigna Healthcare does not take responsibility for any medication decisions made by the doctor or pharmacist. Cigna Healthcare may receive payments from manufacturers of certain preferred brand medications, and in limited instances, certain non-preferred brand medications, that may or may not be shared with your plan depending on its arrangement with Cigna Healthcare. Depending upon plan design, market conditions, the extent to which manufacturer payments are shared with your plan and other factors as of the date of service, the preferred brand medication may or may not represent the lowest-cost brand medication within its class for you and/or your plan.

Health benefit plans vary, but in general to be eligible for coverage a drug must be approved by the Food and Drug Administration (FDA), prescribed by a health care professional, purchased from a licensed pharmacy and medically necessary. If your plan provides coverage for certain prescription drugs with no cost-share, you may be required to use an in-network pharmacy to fill the prescription. If you use a pharmacy that does not participate in your plan's network, your prescription may not be covered, or reimbursement may be limited by your plan's copayment, coinsurance or deductible requirements. Certain features described in this document may not be applicable to your specific health plan, and plan features may vary by location and plan type. Refer to your plan documents for costs and complete details of your plan's prescription drug coverage.

Product availability may vary by location and plan type and is subject to change. All group health insurance policies and health benefit plans contain exclusions and limitations. For costs and details of coverage, review your plan documents or contact a Cigna Healthcare representative.

Cigna Healthcare products and services are provided exclusively by or through operating subsidiaries of The Cigna Group.
